

## Checklist Electrical Plan

---

In order to perform a thorough Electrical Plan review, plans and specifications submitted must include the following:

- Lighting layout
- Circuiting (power layout)
- Switching
- Conductor and raceway sizes
- Wattage schedule
- Service location and riser diagram
- Load calculations
- A proposed method of construction that is drawn with symbols of a standard form
- All conductors are assumed to be copper unless otherwise stated in the plan
- Signature and seal of the licensed architect or engineer who prepared, or supervised the preparation of, the plans and specifications
